**BALANCING
MODERNISM & WARMTH**

Being in the 1% club requires balance. Between authenticity and popularity, toughness and gentleness. Meraki's design also strikes a rare balance... between modernism and warmth. The contemporary design, boutique elements and long lines evoke modernism. The fine materials like brick, glass, and wood radiate warmth. Moreover, each home is designed to be bathed in light, perfectly fusing luxury and nature. One third of the property is also curated with landscaped amenities, and these peripheral green areas offer every house a view into a garden of their own.
